

OG SMILE

Get a healthy, happy smile! OG Smile is the natural, healthier toothpaste you've been searching for! Its special formula is free from fluoride and SLS, and protects the enamel of your teeth and your gums in a gentle, natural way. OG Smile also fights bacteria and plaque for brighter, healthier teeth.

WHY CHOOSE OG SMILE?

Natural is always better! OG Smile's latest formula guarantees that you're taking care of your teeth without adding harmful ingredients.

- OG Smile is free from Sodium Lauryl Sulfate, a harsh component that may be dangerous in high concentrations or cause high sensitivity.
- OG Smile is also free from fluoride, making it vegan-friendly and unique from conventional brands that put all kinds of chemicals in their formulations.
- OG Smile has no artificial colors or components.

INGREDIENTS FOR A BRIGHTER SMILE

OG Smile is crafted with special ingredients, proven to clean, refresh and protect your oral health:

- **Rice Bran Oil** for a fresh breath
- **Tea Tree Oil** to fight plaque
- **Ganoderma Extract** that fights bacteria, and supports gum health
- **Bamboo Charcoal** for cleaner teeth without weakening its enamel
- **Hydrated Silica** for gentle whitening and brightening

TOOTH CARE 101

- **Add Flossing to your routine.** It removes plaque that's stuck in between your teeth.

- **Use a proper toothpaste.** Go for safe products like OG Smile! It combines the unique benefits of authentic Ganoderma and natural ingredients for a whiter teeth.

- **Visit your dentist at least once a year.** Avoid painful issues and chronic problems.

- **Don't smoke.** Smoking speeds up damage on your teeth, causes gum disease, and stains your teeth permanently.

- **Clean your tongue.** Clean your tongue to remove bacteria and avoid bad breath.

CHOOSE YOUR FOOD WISELY

Choosing your food can be crucial to keep the health of your teeth. Here is a list of do's and don'ts.

Good foods for your teeth
