WHAT IS IT?

ORGANO™ Red Tea is a powerful herbal fusion of red tea combined with Cordyceps and Organic Ganoderma in a delicious tasting tea. Great for anyone that wants the great taste and benefits of this fresh and light tasting tea.

KEY INGREDIENTS

Cordyceps –These “club head” mushrooms have a wide range of chemical components and compounds that make them particularly valuable and prized in Chinese culture.

Ganoderma – also known as the red Reishi mushroom, this mild flavor adds a note of depth to the tea flavor and brings its own benefits. Ganoderma mushrooms provide triterpenoids and amino acids.

Ganoderma has been used in traditional Asian culture for thousands of years. The name Ganoderma means “spiritual potency”, while the Japanese name Reishi can be translated as “King of Herbs”.

DID YOU KNOW?

Cordyceps are grown in a mineral-rich soil at high altitudes and low temperatures and is a celebrated mushroom used for centuries in traditional Chinese culture. Because of their incredible benefits, remote habitat, and tough geography, Cordyceps were historically reserved for the Emperor's highest court and Chinese nobility.

HOW TO USE IT

Place the tea bag at the bottom of the cup and pour the hot water on top to your desired level. Freshly boiled water, rested for a 2-3 minutes so the temperature drops to 140-185°F, is the ideal heat for when you pour.

Let the tea brew for 1-2 minutes. If you want a stronger taste, let the tea brew for 2-3 minutes.

Make your own flavors by adding ginger, honey, sugar, or cream. Chill and serve cold over ice with fresh mint or lemon.
